

COMMENTS FROM THE MAYOR
By Charles Jessup

Addressing Citizen Concerns

As your Mayor, I am always at your service, especially when presented with a residents concern or problem. Sometimes however, the concern is city wide and must be addressed as such. In the past months, two such citywide concerns have been brought forth. They are reoccurring electrical outages and mosquitos. Both are being addressed.

Electrical Concerns: After recent storm related outages, I asked our CenterPoint representative for a report and summary of power in Meadows Place. I received the following report and am very encouraged.

Mayor,

I appreciate the concern that you and your residents have regarding both power outages and restoration times. Meadows Place has 5 different overhead circuits that feed the distribution system. These circuits are robust and provide the flexibility to move load from one circuit to another should some fault occur. CenterPoint Energy’s standard distribution is overhead. However, the developers/builders in Meadows Place requested underground distribution.

The majority of service challenges in Meadows Place is the underground distribution systems. Faults on underground are more difficult to identify and have more extended repair times. These challenges have been magnified this year with the number of severe rain events that have occurred. High water impacted both the access to the system as well as repairs. CenterPoint Energy has recognized those challenges and began to aggressively address those challenges the last several years with the Cable Assessment Plan. This plan proactively tests the various sections (loops) for weaknesses, both in the cable itself as well as transformers.

Did You Know?...

Did You Know... Joseph & Patti Terraso offered the city “Kudos for the excellent job that was done on West Airport and Kirkwood”? They said “the roadway is smooth, new turning lanes are excellent and a traffic mover and the double turn lanes make it so much easier to make the lights. Thanks for all the hard work that you’ve done to bring this to a reality. It took a while but now that it is over, it is well worth it.”

My favorite part was when Joseph said “Patti & I really like the signs at the entrance of our city. Shows real class.” Thank You Joseph, for both your input and your kind words.

Did You Know... Barry Little also contacted me last month? He was thrilled to hear about the new Rainbow Trout stocking program. Me too, Barry, me too.,

Did You Know... the Parks Department has a new format in the newsletter? It is a lot of fun and packed full of information on events like the Rainbow Trout stocking at the lake, the new Christmas Crafts Corner, our Toys for Tots program and much, much, more. Do yourself a favor and check it out. You’ll be glad you did.

Did You Know... the Meadows Place Haunting and Zombie Laser Tag event was a huge success? Some 300 kids were laughing, running around having fun. My wife Elaine and I had fun too, especially while riding the spooky Ghost Train around the lake with Emily Wolf and her Dad. Can’t wait ‘til next year!

Did You Know... Meadows Elementary school nurse Pam Barnes was selected as the Fort Bend Star ‘Civil Servant of the Week’? This is her second year at Meadows Elementary where she loves working our kids and making a difference in their lives. She believes that “if children are healthy physically and mentally, they tend to achieve academically at a higher level”. Well, we do too, so Thank You Ms. Barnes, and Congratulations on the

award.

Did You Know... we have begun to put notices of all types on our official Facebook Page? Everything from meetings to scheduled water outages, to Congressman Pete Olson wishing Meadows Place Happy Birthday (in November). We are almost to our goal of 500 “likes” by the end of December. There is a link on the City website or you can check it out at <https://www.facebook.com/cityofmeadowsplace>. Hope you will “like” us too.

Did You Know... long time Meadows Place parents James and Mary Rowell are proud of their son John who made All-Lone Star Conference First Team Offensive Lineman...as a Sophomore? Congratulations Rowell family!

Jack and Cyndi Shaw are also Meadows Place proud parents – Proud papa Jack said they are very proud of daughter Kali, who was named all Sooner Athletic Conference Freshman of the Year and made 2nd team all-conference and the only freshman to make 1st, 2nd teams or honorable mention in conference. She is also the #2 all-time freshmen kill leader in SAGU volleyball records. Good job Kali!

Not to be left out, Scott Holland wanted us to know that his son Jake, who played baseball in Meadows Place and Dulles signed a national letter of intent to play for the University of the Ozarks. Young folks proving Meadows Place is a great place to live and play, proving over and over Meadows Place is Your Place for Life!

Did You Know... Mayor Pro-Tem Terry Henley was elected to the Board of Directors of the Houston-Galveston Area Council, marking his twenty-third term representing General Law Cities like Meadows Place? Congratulations Terry and Thank You for your service.

If you have a fun event or someone did something special, drop us a note or email: mayor@cityofmeadowsplace.org. Thank You Meadows Place... *Your Place for Life!*

Did You Know... The YAC - Youth Action Council, met for the first time in Meadows Place last month? There were 27 Meadows Place teens in attendance. They had a great time on Segway’s, eating pizza and finding out what YAC is all about. Besides having fun and having a positive impact on Meadows Place, YAC members represent our community, gain and enhance vital leadership skills, and make a difference by addressing issues important to Meadows Place youth. YAC is the real deal. Applications for membership are due Dec. 4. For more information contact Parks Director, Colene Cabezas at 281.642.7696. YAC members are making sure Meadows Place will always be *Your Place for Life!*

(Comments From The Mayor continued from page 1)

Over 15 loops have been or are in the process of being tested at an approximate cost of \$500,000. This cost does not include and repairs or replacement identified in the testing process. Those cost can reach over \$100,000 per loop depending on the extent of repairs/replacement. CenterPoint Energy will continue to look at opportunities to provide our customers with quality electric service commensurate with prudent operating practices and we appreciate the opportunity to address these concerns.

Sincerely,

Dominic Robinson
Service Area Director (CenterPoint Energy)

Mr. Robinson assures me that we will see continued progress, improvements and upgrades on the electrical systems within our city.

Mosquitos:-The huge growth in Fort Bend County has made it more difficult to deal with "nuisance" mosquito calls. Meadows Place understands and has full confidence in the County to respond to potential health threats, but that doesn't help us when those pesky critters invade. To that end, Public Works Director Danny Segundo, with Council approval, began the difficult process of getting the necessary equipment and certifications to allow Meadows Place to spray for mosquitos on its own. We should be equipped and certified by the end of January. More later.

Meadows Place Election Turnout

Meadows Place residents continued voting at a higher rate than the county average. We are known for turning out to vote and though we didn't have a city issue, we still beat the County average by 27 %. That is fantastic, Thank You. Voting is our chance to have a say in our future and is noticed by and appreciated by our County and State officials. Great job Meadows Place!

Taking Care of Business

Our Business Neighbors are a very important part of the City. This column is dedicated to those businesses.

There are lots of great places to eat in Meadows Place. One has consistently been listed among the top eateries in the Greater Houston Area. That restaurant is:

Great W'kana Café

Meadows Place has some really great businesses. Let's all support them. They need, and deserve, our support.

Cell Phone Driving Hazards

The U.S. is a nation comprised of high-speed multi-taskers; but multi-tasking while you are driving?

Automobiles and cell phones do not mix. Driving while talking on a cell phone reduces a driver's response time to the same levels observed in drunk drivers. Often drivers that simply involve themselves in a conversation suffer debilitating distractions.

General Tips for Driving Safer with Cell Phones

- Abstain from talking on a cell phone while you are actively driving.
- If you need to answer a call or make one, try to pull off the road into a safe parking area.
- Make sure your phone is within easy reach, not in the glove compartment or a purse where you might have to dig for it.
- Use a hand's free device like a Bluetooth headset or earpiece that allows you to talk while both hands remain on the wheel. *(Caution: evidence suggests that drivers simply involve themselves in a conversation suffer debilitating distractions. Hands-free phones may even lead drivers to believe they are safer, argue some safety advocates. Complex business transactions and emotionally involved conversations reduce driver reaction times and steal away attention. on the part of all drivers)*
- Hands-free or not, postpone conversations that are either emotional or complex.
- Prior to getting on the road, practice driving while using your hands-free device in an open parking lot so you know how to use it properly without fumbling.
- Do not send a text message, IM or try to read incoming messages while driving.
- Shop for the latest models of phones that feature voice-activated dialing and speed dialing.
- Use your cell phone only in the event of an emergency in which you need help or someone else needs help.

Winter Weather

Bring on our cooler weather, and say goodbye to the mosquitos!

There are several things that can and need to be accomplished this time of year to help protect our homes from winter, and prepare for Spring.

Lawn and Garden -Trim any trees that could come in contact with your house during heavy wind gusts, or that could break off and cause damage. Please also note that because the leaves are falling, it will be easier to trim our trees from over the street (no lower than 16') and sidewalks (no lower than 10').

Protect Pipes and Faucets - Water supplies to outside faucets, ponds, waterfalls, etc. should be shut off and drained before the temperature drops to below freezing. Any water pipes that are directly exposed to the cold should be insulated to protect them from freezing.

Check and clean your Heating System -It is critical that you ensure that you properly maintain your equipment. Start by having your heating system tuned up by a qualified technician if required. The last thing you need is to have your system breakdown in the middle of a cold spell.

Clean that fireplace. Now is the perfect time for a professional cleaning - it makes fires cleaner and safer.

Only Rain, Down the Drain

Storm water runoff from urban areas can carry pollutants and trash into the storm water drainage system. Water that flows down the drains in our homes first goes to sewage treatment facilities before it's released to bayous and rivers. But, water that flows into our storm water drainage system, along with other substances it collects, goes directly into our bayous, rivers, and ultimately into Galveston Bay. Unlike sewage, storm water receives no treatment.

The City of Meadows Place is installing inlet markers bearing the phrase "only rain down the drain". The message is intended to remind citizens to not to dump pollutants into storm sewers or contribute to ordinary storm water runoff by littering, over-fertilizing, or sweeping yard debris into the street.

Much of the pollution in area creeks and bayous comes from common, every-day materials, like household chemicals, fertilizers, pesticides, gasoline, used motor oil and antifreeze and litter. These substances run off into storm drain inlets by rainwater from our streets, yards, driveways and parking lots. Information about the City's storm water management plan can be found on the City's website at www.cityofmeadowsplace.org, under the public works link, storm water hotline page.

Home & Garden Club

By Rose Melancon, Publicity

Our Fall Craft Show was a huge success! Thanks to the vendors and their wonderful handcrafted merchandise, Becky Gill for coordinating the bake sale and everyone who made such delicious items, Joe DeBruyn for coordinating this event, Larry and Beverly Martin who organized the food booth, Lou Ann Kelly who organized the raffle booth and to all who donated items for the raffle sale. Thanks to Sugar Grove Church of Christ for allowing us to rent their facility. A special thanks to Robert Grimes for his photography and slides of the Craft Show. See them on our web site. Finally, thanks to all who shopped at the Craft Show. We appreciate your support! The Craft Show is the major fundraiser for the Home & Garden Club's Scholarship Award Fund.

Interior design ideas were presented by a professional designer, Tommy Thompson, at our November meeting. Thank you Tommy Thompson for an informative and inspirational meeting. This information will help us get our homes ready for the Home & Garden Tour in the spring! Tommy Thompson will be instructing a class at Leisure Learning Unlimited on December 5th. See their web site to register for the class or phone him at 281-301-9558 for a consultation.

The Home & Garden Club gave a Thanksgiving gift card to a special family here in our community. We also made a donation to the ALS foundation on Anne Dybala's behalf.

 *Title 1st Meadows Place YAC meeting*

The YAC - Youth Action Council, met for the first time in Meadows Place this past Friday night. There were 27 teens in attendance. They had a great time on the Segway's and eating pizza. Applications for membership were handed out with the due date of Dec. 4. Our next meeting will be also be our first volunteer opportunity as we will help out at Christmas Memories on Dec 11. YAC members will first meet at the Community Center then the travel together to the park to assist with the canned goods and toy drive. YAC Applications are available at City Hall for any teen that is interested.

 *No boats are allowed*

STOP AQUATIC HITCHHIKERS!™

No boats are allowed in the Meadows Place Lake due to possible invasive infestation by microscopic organisms. These organisms can get trapped on a boat that has been in another waterway and in turn degrade the Meadows Place Lake once introduced. This can create a fish kill and choke out native plants.

Meadows Place kayaks are the exception because they have only been used in the Meadows Place Lake and swimming pool, therefore it is known that they are free of invasive organisms.

The City offers kayaking classes as well as free days at the lake using City kayaks. For more information contact 281.983.2935

PREVENTIVE MAINTENANCE TIP ~ FYI:

Have the duct work checked in your homes attic space for air leaks. If your home is 25-30 years old the typical "flex duct" originally installed by builders can deteriorate & literally "fall apart" due to constant heat & humidity of attic conditions in our area. This can hit you hard in the "pocketbook" (i.e. very comfortable attic space!!). Not to mention your system has to work harder to comfortably heat & cool your home. Having your duct work checked can be easily scheduled during your annual fall furnace inspection. **Call Now** before you make the switch to heat.
