

Transferring Service To New Line Notice

Dorrance Lane Construction

Statewide Services has been selected as the general contractor to complete the Dorrance Lane construction project between Kirkwood Road and Oxford Street. This project will start in June 2022 and is anticipated to be completed in late fall 2022. The construction project will consist of installing new waterlines, storm sewer improvements, ADA accessible sidewalks and concrete street paving.

The project will require single lane closures and one-way traffic on Dorrance Lane during construction. The City apologizes for this inconvenience and appreciates your patience and tolerance throughout the construction project.

We will be transferring the waterline service to the new line on Thursday, August 18th and Friday, August 19th. Each connection will take about 30-45 minutes to connect.

If you have any questions or concerns, see below for the construction project team's contact numbers.

City of Meadows Place: 281-983-2950
